

A/B, 2, 28/3

TO: Chief, Security Research Staff  
FROM: Chief, Technical Branch

DATE: 14 April 1953

SUBJECT: **H-B/3**

REFERENCE: Memorandum from Chief [REDACTED] to Chief [REDACTED] dated 31 March 1953 G  
with the specific Subject [REDACTED]

**B/3**

**A**  
**B/3** 1. This memorandum, signed by [REDACTED], reflects that [REDACTED] status apparently was to be changed from confinement to rehabilitation and that in the future, after certain necessary requirements had been accomplished, [REDACTED] was to be released in some [REDACTED] country and completely F  
divorced from all contact with this Agency.

**A**  
**B/3** 2. In connection with the above, on 2 March 1953 the professional opinion of [REDACTED] and [REDACTED] who is totally familiar with the [REDACTED] case, was obtained as to whether or not [REDACTED] could be used in certain operations in [REDACTED] or possibly turned loose. At that time, [REDACTED] stated in his opinion that he felt that [REDACTED] could be turned loose or used operationally and that this would not, from an ANTICHRINE point of view, jeopardize Security and/or the Agency operations.

**B/3** 3. Since it appears the [REDACTED] now is to be turned loose after certain rehabilitation has taken place in some [REDACTED], it would appear that [REDACTED] professional opinion would continue to hold in this instance.  
**A**

**B/3**  
**A** 4. It is the opinion of the writer in view of the proposed disposition of [REDACTED] and in view of [REDACTED] opinion that SO should interpose no objection to the proposals as set out in the above referred memorandum.

**B/3** 5. It should be noted for the record however that it would be of great interest to ANTICHRINE if any individual, who is cognizant of the facts in the case, could question [REDACTED] again and test him in a subtle manner concerning possible amnesia and his present views in connection with the ANTICHRINE techniques.
